

What is Anchor Tag?

- > Anchor tag is used to create Hyperlinks in HTML.
- > Anchor tag is used to join multiple webpages with the help of Hyperlinks.
- > With the help of Anchor tag we can navigate from one page to another page.
- > Anchor tag is paired tag in HTML.
- > Anchor tag will accept 2 attributes: href and target

Syntax: `<a href="reference/path" target="_self"> Content </a>`

Here,

href = Hyper reference

target = It is used to decide where we want to open the reference/path provided in the href.

It will accept 4 values -> _self(default), _blank, _top, _parent

Same tab = _self

New or Blank tab = _blank

Appearance of HTML Anchor Tag:

- Unvisited Link → Displayed underlined and blue.
- Visited Link → Displayed underlined and purple.
- Active Link → Underlined and red color.

How to prevent refresh / reload of a anchor tag:

- > By passing # inside the href.
- > Example = `<a href="#"> Content </a>`

Link to same tab:

-> Example = ` Visit Google
`

Link to new / other tab:

-> Example = ` Visit
Google `

How to download source on clicking link (download):

-> The download attribute specifies that the target (the file specified in the href attribute) will be downloaded when a user clicks on the hyperlink.

-> Example: `<a href="/assets/devlogo.jpg" download>Download</a>`

-> NOTE ⇒ If we do not provide the value for download attribute by default it will take the name of the file name that we have provided in the href attribute as source.

-> Example: `<a href="/assets/devlogo.jpg"
download="Developer">Download`

How to add Icons in a Webpage:

-> Use the font awesome icon website.

-> Website: <https://fontawesome.com/icons>

-> Search any icons and make sure use the free one icons, don't use pro icons.

-> After copy pasting the icon tag use the cdn link of font awesome.

-> Search in browser = font awesome cdn link

-> Open the website called as => cdnjs (font-awesome - Libraries)

-> And copy the first Link tag and paste it into the <head> tag of HTML.

-> Below is the link tag of font awesome:

```
<link rel="stylesheet" href="https://cdnjs.cloudflare.com/ajax/libs/font-  
awesome/7.0.1/css/all.min.css" integrity="sha512-  
2SwdPD6INVrV/IHTZbO2nodKhrnDdJK9/kg2XD1r9uGqPo1cUbujc+IYdIYdEErW  
Nu69gVcYgdxImVmzTWnetw==" crossorigin="anonymous" referrerpolicy="no-  
referrer" />
```
